INFOR CloudSuite

DISTRIBUTION ERP

The most powerful industry-proven distribution ERP.

An AI-powered, cloud-based ERP tailored for distribution, from warehouse operations to customer delivery.

01	02	03	04	05	06
Inventory	Warehouse	Sales Orders	Supply Chain	Delivery	Finance

OVERVIEW

Built for distribution, from SMB to global enterprise

Role-based interfaces and pre-configured processes speed up deployment, while inventory, warehouse and supply chain management run on one cloud platform.

Embedded AI and real-time analytics help teams automate routine work and act on live data.

TWO EDITIONS

- CloudSuite Distribution Enterprise: mid-sized to large wholesale distributors
- CloudSuite Distribution: regional distributors

KEY BENEFITS

Why distributors choose it

Streamline distribution operations

Prebuilt, integrated workflows that improve efficiency and profitability.

Boost productivity

AI tools automate routine tasks so staff can focus on higher-value work.

Avoid supply chain disruption

Real-time visibility and demand anticipation help prevent stockouts.

Meet evolving expectations

Faster, personalised service, flexible fulfilment and reliable order-to-promise.

CAPABILITIES

Eight capabilities. One platform.

01 Industry AI

Predictive and prescriptive AI for personalised pricing, product recommendations and real-time inventory adjustments.

02 Inventory and warehouse

Centralised visibility across multiple warehouses, countries and currencies.

03 Value-added services

Support for rental, kitting and assembly to create new revenue streams.

04 Multi-channel order management

Customer service, counter, EDI, eCommerce and marketplaces in one order flow.

05 Global supply chain

Warehouse and transport management, lot traceability, and localised support in 49 countries and 24 languages.

06 Role-based experience

Customisable workspaces with embedded AI insights, unified home pages and alerts.

07 Faster, lower-risk deployment

Pre-configured workflows based on industry practices.

08 Financial management

Budgeting, multi-currency support, real-time reporting and cash flow visibility.

AI AND ANALYTICS

Intelligence built into every process

Infor Velocity Suite

An AI add-on for every CloudSuite, with industry AI agents, GenAI, process mining, automation and implementation experts, offered at one flat fee.

- Industry AI agents
- GenAI
- Process mining
- Automation
- Embedded analytics

CHOOSE YOUR EDITION

CloudSuite Distribution Enterprise

For mid-sized to large wholesale distributors.

- Multi-site, multi-company, multi-currency, multi-language
- Comprehensive functionality and scalability
- Embedded analytics, workflow and alerting
- Enterprise search and extensibility

CloudSuite Distribution

For regional distributors.

- Multi-location support
- Core distribution capabilities
- User-friendly interface
- Embedded analytics and Infor application integration
- Scalable cloud deployment

PROVEN RESULTS

20%
less downtime at Kal Tire through AI-driven tire management

30%
