INFOR CloudSuite

FASHION AND APPAREL ERP

Fashion and apparel ERP that's reshaping the industry.

An industry-specific ERP for apparel, footwear and fashion brands, covering design through delivery, with streamlined operations, product personalisation and risk management.

01	02	03	04	05	06
Design	Production	Planning	Warehouse	Sales	Analytics

OVERVIEW

One system from concept to customer

Built for the full product lifecycle, from collection design and production to sales strategy, with control over inventory, demand planning and multi-channel sales.

The platform unifies operations into one data-driven system for smarter decisions, trend adaptability and sustainable profitability.

BUILT FOR

- Apparel
- Footwear
- Textiles
- Fashion brands and retailers

KEY BENEFITS

Why manufacturers and brands choose it

Better supply chain management

Real-time insight to improve accuracy and cut delays across multi-region supply chains.

Role-based workspaces

Tailored dashboards give each team the tools it needs.

Scalability and flexibility

Adapts to market shifts, acquisitions and changing strategies.

Cost efficiencies

Reduces waste and optimises inventory so products are where they need to be.

CAPABILITIES

Eight capabilities. One platform.

01 **Item and attribute management**

Tracks fabric, fit and embellishments, with serialised-level personalisation.

02 **Multi-channel sales and fulfilment**

Online, retail and wholesale channels in one connected system.

03 **Inventory allocation**

Forecast-driven allocation to stores and markets to limit overstock, stockouts and waste.

04 **Finished goods and raw materials**

Tracks materials, trims and finished goods, with multi-level BOM allocation.

05 **Planning and demand forecasting**

AI-powered planning and scenario modelling across manufacturing, procurement and inventory.

06 **Embedded warehousing**

Inbound, outbound and internal transactions with end-to-end visibility.

07 **Integrated financials**

Multiple currencies, languages and legal requirements across 73 countries.

08 **Advanced analytics**

AI-driven dashboards and pre-built analytics for trends and performance.

AI AND ANALYTICS

Intelligence built into every process

Infor Velocity Suite

An all-inclusive AI package for every CloudSuite: industry AI agents, GenAI, process mining, automations and implementation experts, at one flat fee.

- Industry AI agents
- GenAI
- Process mining
- Automations
- Implementation experts
